EDUQUEST

ECO-ADVENTURE CAMP

GAJ RETREAT, HOSHIARPUR (RADISSON PROPERTY)

Departure Dates:
November/ December 2026

Duration of Trip
3-Day Immersive Camp

VISION

The camp's primary focus is on student development by combining practical eco-tourism exploration with structured leadership & teamwork activities in Punjab's rural landscape. The vision is to nurture environmentally aware, independent and socially responsible students through focused learning outside the classroom.

STRENGTHS

This itinerary is built around experiential learning such as an immersive tour of an organic farm, outdoor adventures including treks, Burma and bamboo bridges, tractor rides and river crossings with safety-focused supervision & careful group rotations. The trip encourages teamwork and an active connection with nature. The students will also have a chance to enjoy the local food, games, culture and lifestyle of Punjab.

OBJECTIVES

- Experiential learning about sustainable agriculture, organic farming, animal husbandry and eco-friendly practices.
- Encouraging students to understand and build leadership skills, problem solving & communication through adventure based challenges.
- Promote interpersonal bonding and camaraderie across different student age groups in a safe environment.
- Enhance personal responsibility and independence through travel, outdoor activities & a unique shared living experience.

EXPECTED OUTCOMES

- Improved understanding of organic farming, local ecosystems, Punjabi culture & sustainable lifestyles.
- Stronger teamwork, leadership and adaptability among students through safe challenges and activities.
- Increased self-confidence and cooperation using active participation in adventure tasks and guided group work.
- Lifelong memories and friendships in an immersive, fun and safe setting.

ADDITIONAL VALUE FOR SCHOOLS

Safety and Supervision:

The schedule includes repeated safety briefings, emergency reminders and clearly defined buffers for transitions

Educational Growth beyond the Classroom

Team building activities & group work each day to learn & for personal growth with the support of peers.

Organized Logistics:

Smooth travel, easy schedules & ample rest periods make it easy for teachers to manage & for students to learn and enjoy.

Attractive for Parent Engagement

The itinerary prioritizes safety, excellent food & lodging, & healthy activities, reassuring parents about their children's well being.

This trip is an excellent opportunity for schools to promote outdoor education, support student growth across different age groups (Grades 6th to 12th) & offer a chance for experiential learning with the thrill of safe adventure activities.

ABOUT HANSALI ORGANIC FARM

Hansali Organic Farm offers a one of its kind immersive agri-tourism experience in the heart of Punjab, inviting students and their families to discover the rich world of organic farming and sustainable rural living. Visiting students can enjoy hands-on learning through guided farm tours, witnessing multi-crop organic orchards, vegetable gardens, free-range poultry and dairy operations featuring both Holstein and desi cows. The farm is recognized for its certified organic produce and award-winning sustainability practices, as well as its direct-to-consumer delivery model, which emphasizes transparent engagement with food sources. Unique activities and authentic Punjabi farm-to-table meals ensure every visit is educational, adventurous and connected to the land's natural way of life.

ABOUT GAJ RETREAT

Gaj Retreat is a premium eco-adventure Radisson property, blending luxury with outdoor excitement in pristine natural surroundings. Students can look forward to engaging in high-energy activities such as river crossing, tractor rides, leadership workshops, and team-building adventure courses, all set within a safe, professionally managed environment. The retreat's modern amenities include spacious rooms, buffets, activity lounges, and beautiful green spaces. Situated on a scenic plateau, Gaj offers eco-friendly amenities designed to ensure minimal negative impact on the environment

- Opportunities for reflection and group bonding each day.
- Focus on sustainability, personal growth, & active learning.

TERMS & CONDITION

- A minimum cohort of 60 students is required for the quoted package rates, with a cap at 80 students. Should the number fall below 60, pricing will need to be revisited and adjusted accordingly.
- Transport costs will be quoted based on the school's location.
- Trip dates will be finalized contingent upon the availability of rooms at Gaj Retreat.
- All payments are to be made in one installment; partial payments or installments are not permitted. Once paid, the fee is non-refundable.
- For any participating student with a prior medical condition, it is mandatory to inform EduQuest at the time of application. EduQuest will make an eligibility decision after reviewing the disclosed medical details.
- Each school is allowed one chaperon per 20 students. Chaperons are expected to cooperate and work with the EduQuest team to help ensure timely attendance, adherence to the program schedule, and compliance with excursion rules.
- We strongly recommend discouraging students from bringing personal mobile phones during the trip to encourage engagement.
- The carrying or use of alcohol, e-cigarettes, vaping devices, or other such substances is strictly prohibited for both students and school chaperons throughout the trip.
