

IMPERIAL

STEMathon 2026 Mumbai

Showcase your talents in science, technology, engineering and mathematics to create an innovative solution that could change the world.

Join Imperial's science and innovation challenge.

Take part

Imperial College London

imperial.ac.uk

We're Imperial College London,
the global #2 university
for science, technology,
engineering, medicine
and business

(QS World University Rankings 2026)

We're looking for talented grade 10 to 12 students from schools across India to join STEMathon 2026, our annual innovation competition for students who want to shape the future.

Design your solution: use your science, tech, engineering, business and enterprise skills to develop your project.

Present your project: pitch your solution to Imperial experts for the chance to progress to our STEMathon final in Mumbai.

What you get

As a STEMathon 2026 participant, you'll get the chance to develop your science and entrepreneurial skills, engage in a hands-on project, challenge yourself and work with other top students from across India.

You'll also be in with a chance of winning one of our STEMathon prizes, including the opportunity to compete at Imperial's annual Global Natural Science and Innovation Competition in London.

STEMathon 2026 runs from July to November 2026. Here's how it works:

Pick your challenge: what's your idea to help meet the UN Global Goals for Sustainable Development Goals?

Build your team: compete as part of a team of three with other grade 10–12 students from your school.
